Course of Study for Pennsylvania State Normal Schools

Graduation in this course will continue until 1913. After 1913 all graduates must have completed the new four years course. See pages 28 and 29.

REGULAR COURSE.

(Studies marked with an (*) are to be reviewed in Senior Year.)

Preparatory and Sub-Junior Studies.

Physiology, Political Geography, Spelling and Writing completed; Algebra through radicals; Drawing (one term), Arithmetic, English Grammar and Reading as in ordinary text books.

Junior Year.

Pedagogics:—School Management.
Language:—English Grammar,* Reading and Orthography, Latin to Cæsar.
Mathematics:—Arithmetic,* Algebra.
Natural Science:—Physiology.
Historical Science:—Geography, United States History, Civil Government of the United States and Pennsylvania.
Arts:—Penmanship (an approved system, with a fair handwriting), Drawing (daily lessons for at least twenty weeks), Vocal Music (elementary principles and daily exercises for at least ten weeks), Book-keeping (single entry, with a knowledge of common business papers).
Physical Culture.

Middle Year.

Pedagogics:—Psychology, Methods of Teaching.
Language:—Rhetoric and Composition, with elocutionary exercises, three books of Cæsar.
Mathematics:—Plane Geometry.
Natural Science:—Elements of Chemistry, Zoology and Botany.
Historical Science:—General History.
Arts:—Manual Training.
Physical Culture.

Senior Year.

Pedagogics—History of Education, Methods of Teaching, Practice of Teaching in Model School (at least twenty weeks, forty-five minutes daily).

Language:—Literature and Classics, three Orations of Cicero, three Books of Virgil, Review of English Grammar.
Mathematics:—Solid Geometry, Plane Trigonometry and Surveying, Review of Arithmetic.
Natural Science:—Physics, Geology.
Physical Culture.

Substitutions.

The following substitutions may be made:
Junior Year.—German or French for Latin.
Middle Year.—German or French for Latin; Greek, German or French for Chemistry.
Senior Year.—English History, Ethics and Logic or Astronomy for Latin; Greek, German or French for Solid Geometry, Trigonometry and Surveying, or for Latin.

SUPPLEMENTARY COURSE.

(In addition to the Regular Course.)

Leading to the Degree of Bachelor of Pedagogics.

Philosophy of Education (Horne); Advanced Psychology (James, Briefer Course).
Discussion of Educational Questions (Educational Aims and Educational values, Hanus); School Supervision, including School Law (Our Schools, Chancellor, Pennsylvania School Laws); Devices for Teaching (Teaching of Elementary Mathematics. Smith); Educational Theories, etc. (Education as Adjustment, O'Shea).
School Apparatus and Appliances, Description, Use and Preparation (Physical Nature of the Child, Rowe).

Leading to the Degree of Master of Pedagogics.

Two years' teaching after graduation in the Regular Course.
Professional Reading, with abstracts: History of Education in the United States (Boone), European Schools (Klemm), Systems of Education (Parsons).
Sanitary Science, School Architecture, etc. School Hygiene (Shaw).
Thesis.
A full equivalent will be accepted for any of the text books named above. The course in reading and classics for all the courses shall be determined by the Board of Principals at their annual meeting, and shall be the same for all Normal Schools.

N. B.—Students are admitted to the Junior or lower classes upon examination by the faculty. These examinations are held at the beginning of each term and just preceding the time of the annual examination. Arrangements may be made to take special examinations on the first Saturday of each month during the school year

The Gymnasium

Rules for final Examinations

and Admissions to the Middle and Senior Classes, Etc.

For all the Normal Schools of Pennsylvania.

1. Admission to the Senior and Middle classes shall be determined by the State Board of Examiners at the annual examination* by the Board.

2. In order to be admitted to the Middle class at any State Normal School, students must be examined by the State Board in all the Junior studies (except English Grammar and Arithmetic), and this examination shall be final. Persons who desire to be admitted to the Middle class without having previously attended a State Normal School, must pass an examination by the Faculty and State Board of Examiners in the academic studies of the Junior year (except the Senior review studies†), and Plane Geometry or the first book of Cæsar, and must complete School Management in the Middle year. Students sufficiently advanced may have the opportunity of taking the Junior and Middle year courses in one year.

3. In order to be admitted to the Senior class, students must be examined by the State Board in all the Middle year studies (except Methods), and this examination shall be final. Persons who desire to be admitted to the Senior class without having previously attended a State Normal School, must pass an examination by the Faculty and State Board in the academic studies of the entire course, except the review studies of the Senior year, and must devote their time during the Senior year to the professional studies of the course and the review studies.

4. If the Faculty of any State Normal School or the State Board of Examiners decides that a person is not prepared to pass an examination by the State Board, he shall not be admit-

* These examinations come early in June, the date being fixed each year by the Stat Superintendent. The examinations are in writing and last three days.

† The Faculty examines in the Senior review studies also. These are Arithmetic and English Grammar

ted to the same examination at any other State Normal School during the same school year.

5. If a person who has completed the examinations required for admission to the Middle or Senior class at any State Normal School desires to enter another Normal School, the principal of the school at which the examination was held shall send the proper certificate to the principal of the school which the person desires to attend. Except for the reason here stated, no certificate setting forth the passing of the Junior or Middle year studies shall be issued.

6. Candidates for graduation shall be examined by the State Board in all branches of the Senior year, including English Grammar, Arithmetic. They shall have the opportunity of being examined in any higher branches, including vocal and instrumental music and double-entry book-keeping, and all studies completed by them shall be named in the certificates.

7. Persons who have been graduated may be examined at any State examination in any higher branches, and the Secretary of the Board of Examiners shall certify on the back of their diplomas to the passing of the branches completed at said examination.

8. A certificate setting forth the proficiency of all applicants in all the studies in which they desire to be examined by the Board of Examiners shall be prepared and signed by the Faculty and presented to the Board. The certificate for the studies of the Junior year shall also include the standing of applicants in the review studies of the Senior year.

9. Graduates of State Normal Schools in the regular course and graduates of accredited colleges may become candidates for the degrees of Bachelor of Pedagogics and Master of Pedagogics. To obtain these degrees, candidates must be examined by the Faculty and State Board upon the studies of the supplementary course. Three years' successful teaching in the public schools of the State since graduation (or two years in the case of candidates who taught in the Model School, will be required of all candidates for the degree of Master of Pedagogics, in addition to the branches of study indicated above.

10. Attendance at a State Normal School during the entire Senior year will be required of all candidates for graduation; but candidates for the pedagogical degree may prepare the required work *in absentia*.

CERTIFICATE AND DIPLOMAS.

A graduate receives a certificate in which are named the branches he has studied, which entitles him to teach in the public schools of Pennsylvania for any two subsequent years without further examination.

Graduates who have continued their studies for *two years* and have practiced their profession for *two annual terms*, in the Common Schools of the State, and who have presented to the Faculty and Board of Examiners a certificate of good moral character and skill in the art of Teaching from the Board or Boards of Directors in whose employ they have taught, countersigned by the proper Superintendent, may receive diplomas, which are permanent certificates of the highest grade. *They confer upon their holder the right to teach the branches named therein in the public schools of Pennsylvania, without further examinations.*

Applications for diplomas must be presented to the Board of Examiners at their regular session.

The Normal School law makes it the duty of the authorities of the Normal Schools to grant diplomas or State Certificates to *actual teachers in Common Schools*, without their having attended the Normal Schools as students. The following are the conditions upon which these diplomas will be granted:

1. Each applicant must be twenty-one years of age, and of good moral character, and must have taught successfully during three successive annual terms in Common Schools in this State, the proof of age to be the declaration of honor of the applicant; and of moral character and a satisfactory discharge of the requisite terms of teaching, a certificate from the proper Board or Boards of Directors, signed by the President and Secretary, and countersigned by the proper County Superintendent or Superintendents.

2. Each applicant shall prepare and present to the Board of Examiners an original thesis of not less than six folio pages of manuscript, on some professional subject, to be retained at the school where the examinations take place.

3. The examinations and certificates shall be without expense to the applicant, and the certificate be full evidence of qualification to teach the branches therein named, in any part of the State, without further examinations.

The New Four Years Normal School Course

In 1910 a four years' Normal School course was adopted for the State Normal Schools of Pennsylvania, in which students may first graduate in 1913, and in which alone they may graduate in 1914 and thereafter.

To be admitted to the first year, students must have a fair knowledge of arithmetic, physiology, civil government, reading, spelling, writing, United States history, geography, grammar, and the elements of algebra to quadratics. Test by faculty.

First Year—Algebra, Latin to Cæsar, school management and school law, spelling, reading and public speaking, ancient and mediæval history, physical geography, arithmetic, English grammar, vocal music, physical training, manual training or domestic science.

Second Year—Plane geometry, rhetoric, composition and English classics, botany, zoology, book-keeping, modern and English history, Cæsar, methods of teaching, drawing, physical training, manual training or domestic science.

Third Year—Psychology, Cicero or German or French, English and American literature, United States history and civil government; geography, physiology and school sanitation, solid geometry and trigonometry, methods in history and geography, physics, physical training. History of arts and sciences may be substituted for Cicero, French or German. Geology and astronomy may be substituted for solid geometry and trigonometry.

Fourth Year—Practice teaching, history of education, agriculture and nature study, arithmetic and methods in arithmetic, grammar and methods in grammar, Virgil or German or French, public speaking, chemistry, drawing, manual training or domestic science, physical training. In the fourth year, for Virgil, French or German any three of the following may be substituted: *i. e.*, ethics, logic, sociology, philosophy of education, or surveying.

ADMISSION OF HIGH SCHOOL GRADUATES AND ATTENDANCE.

I. Properly certified graduates of approved Pennsylvania high schools of the first grade, and of city high schools, as listed by the Department of Public Instruction, will be recommended to the State Board of Examiners for admission to the third year of the above course without examination by the faculty, conditioned in the branches which they have not satisfactorily completed.

II. Properly certified graduates of approved Pennsylvania high schools of the second grade will be recommended to the State Board of Examiners for admission to the second year of the above course without examination by the faculty, conditioned in the branches which they have not satisfactorily completed.

III. Properly certified graduates of approved Pennsylvania high schools of the third grade shall be admitted to the first year of the above course without examination, conditioned in the branches which have not been satisfactorily completed.

IV. Residence for the last two years will be required of all students except graduates of four year courses in colleges approved by the College and University Council of Pennsylvania, who may be graduated after one year's residence.

Departments of Study

Professional Training

The aim of the Department of Psychology and Education is to prepare practical and efficient teachers by giving the students such special instruction and training as will prepare them in the best possible manner for the work of organizing, governing, and teaching the various grades of schools. While thorough scholarship will always be considered an essential quality of the good teacher, professional training is to-day universally regarded as a necessary requisite. There is a constant and successful effort in the department to carefully correlate all courses and at the same time to keep in close touch with the observation and practice work of the Model School.

Junior Year:—Management and Methods of Teaching.

The course in School Management consists of a practical study of school organization and discipline; a brief study of School Law is also given, together with a comparative study of several good schools.

In Methods of Teaching the aim is to prepare the students to teach the elementary school branches in accordance with modern pedagogical principles.

Middle Year:—Psychology and Methods of Teaching.

This course begins with a study of the normal adult mind and gradually extends to Genetic Psychology, where the students learn to understand and to develop the mind of the child, and thus in the end gain an intelligent sympathy with children. The aim is to give the student-teachers a body of well classified knowledge, the method to acquire more such knowledge, and the ability to apply this knowledge directly to teaching. Experiments, demonstrations, and library work are frequently used where practicable.

The application of Psychology to teaching is practically emphasized in the second part of the course. The methods of teaching the different elementary branches are briefly but carefully considered, and constant use is made of the newly organized Text Book Library.

Senior Year:—History of Education and Methods of Teaching.

In order to understand the present it is necessary in a measure to know the past. The course in the History of Education leads the students to understand the development of the present educational institutions, methods and systems, as they have been evolved.

The Work in Methods of Teaching in the Senior Year includes observation and practice in the Model School, and class work given by the heads of the different departments of the school.

Ethics and Logic:—These subjects (in connection with English History) may be substituted for Latin in the Senior Year. Astronomy may be substituted for Logic.

The central purpose in Logic is to train the students by means of abstract study and much practice to distinguish accurately between

correct and incorrect thinking, and at the same time to discern that Logic is the science of method which underlies all sciences.

The teacher's aim is essentially a moral one and the work as given in Ethics includes an analytic and constructive study of such questions as self-realization, duty, conscience, justice, temperance, happiness, etc.

Supplementary Course:—This work leads to the degrees of Bachelor and Master of Pedagogics, and offers a comprehensive study of the Philosophy of Education, Psychology, School Organization and Methods of Instruction.

The Model School

The Model School is housed in a new stone building, 114 by 62 feet, which has been recently erected at a cost of forty-two thousand dollars, and which is a most complete and suitable building for the purpose. This building is used by the Public Schools of West Chester and the Superintendent of the West Chester Schools is Principal of the Model School. The members of the Senior Class observe and teach in the different schools of this building. They meet the Principal of the Model School collectively once each week for general instruction in methods and school management, and individually meet him daily for special instruction adapted to their needs. This experience in public schools of high reputation and efficiency is an excellent preparation for the practical side of teaching, and gives the graduates of the school an unusual advantage.

Language

English Grammar:—Our teachers aim to make the work in grammar distinctly practical. While they present the technical side of the subject and emphasize the importance of a thorough understanding of the inflections and relations of the various parts of speech, their main purpose is to train the student in the use of his mother tongue by having him use it. Carefully criticized oral and written work is conducted and personal interviews with the students are held in order to point out their mistakes and lead to a remedy. The new course continues the study of grammar in the Senior year where, aside from a general review there taken, an opportunity is given for the presentation of pedagogical suggestions to the person about to teach. To our students grammar is made not merely a science—knowledge systematized—but an *art*—knowledge applied.

Rhetoric:—The work in rhetoric embraces a careful study of style in its various phases and a continuation of the written exercises carried on in grammar. Effectiveness of speech is thus made to supplement fluency and accuracy. The preparation of more comprehensive theses is added to the writing of one-page themes, and more formal and extended orations take the place of brief speeches.

Literature:—The study of literature includes a general survey of English and American literature, a thorough discussion of plans for the consideration of an author's life and writings, and a careful, critical examination and appreciation of certain great classics. The aim is not merely to familiarize the student with dates and facts, figures and philology, but to guide him to the real essence of literature and lead him to get at the heart of the thought of the author and get that thought into his heart.

The requirements in English for admission to American colleges receive special attention.

Latin:—In the Junior year the aim is to master the declensions of nouns, pronouns and adjectives, the comparison of adjectives, the formation and comparison of adverbs, and the conjugation of regular and irregular verbs. Daily exercises in the translation from Latin into English and from English into Latin are required in such a way as to give the student an ordinary working vocabulary and understanding of the common rules of syntax. In the middle year three books of Cæsar's Commentaries are read. A critical study is made in view of thoroughly grounding the rules of syntax, special attention being given to subjunctives. Translation into the best English idiom is rigidly required. Translations at sight and hearing are practiced. A knowledge of the subject matter, such as the tracing of Cæsar's marches, the geography of Gaul, the Roman art of war, and the life of Cæsar are topics for supplementary reading. In the Senior year three of Cicero's orations are read. Attention is given to the logical outlines, to the style of Roman oratory and to Cicero's life and the times in which he lived. Three books of Virgil's Æneid are also read. Attention is given to the general style, Epic poetry, poetic constructions, figures of speech, prosody, peculiarities in the forms, mythological references, and to Virgil's life and times. Additional Latin as needed for admission to college or for other purposes may be taken.

German and French:—German or French may be substituted for Chemistry or Cæsar in the Middle year and for Solid Geometry, Trigonometry and Surveying or for Latin in the Senior year. Additional work may also be taken in these languages. The instructor in this department has been educated abroad and has a careful and accurate knowledge of French and German. She has had large experience in teaching these languages in American colleges. The students, during the first year, are carefully drilled in correct pronunciation and made familiar with the elements of the Grammar. Idiomatic expressions, proverbs, short poems and prose selections are memorized and frequently repeated, and a considerable amount of German and French is read. Conversation and free reproduction based on selections read are found to be useful in fixing the principles of the language, and the sight reading and dictation exercises are valuable aids in the same direction. German or French is freely used in the class room to enable pupils to acquire as much as possible during the year. This is followed by a more exhaustive study of the grammar, by much reading of standard literature and further practice in conversation, compositon and drill in letter-writing. Sight reading and dictation exercises are continued throughout the course.

Reading:—The work of the preparatory classes is practice reading for facility in dealing with ideas presented in words. Each student is required to have a certain amount of practice in speaking in the auditorium. In the Junior classes the aim is to cultivate the power of thought and imagination in relation to expression, both by theory and in practice, and to train the voice and body to be useful means of expression. Especial attention is paid to correct speech with a brief review of phonics. Advanced reading may be taken by anyone who has passed the Junior reading. This gives further oportunity for practice in speaking and interpretative reading of standard literature. Public recitals are given from time to time, which afford opportunity for public work. Special arrangements may be made for private lessons in elocution.

Orthography:—Students, upon entrance to the school, are given an opportunity to pass Orthography in a special examination. Those who are found to be deficient will be expected to take up the subject in class at once. Constant drill in spelling and definition is given

The Model School

from a good spelling book. The work is usually written, and much attention is paid to a correct understanding of the words spelled, as shown by their use in sentences. The school believes in the importance of correct spelling, and that persistent drill will make good spellers.

Mathematics

The methods employed in teaching mathematics are based on the pedagogical law, that the nature of the subject to be taught conditions the method of teaching it. The nature of every subject in mathematics is found in its fundamental concepts, its principles, and in their applications.

The fundamental principles are also developed inductively through solutions of characteristic problems, and are formulated and expressed in clear and concise language, and learned.

Accordingly, students preparing to teach are required to study thoroughly the science of each subject. In arithmetic and elementary algebra they are led inductively to a comprehension of the fundamental concepts and to an interpretation of the definitions of them.

In the light of these definitions and principles, problems are worked out, the solution being put in statements expressing each logical step involved. In order to accomplish the work in this thorough manner, students must have a preliminary knowledge of arithmetic through percentage and proportion and some of their applications; and in algebra through radicals and quadratic equations before they are allowed to enter the Junior class, their knowledge being tested by an entrance examination. In the Junior class the subjects of these branches are thoroughly reviewed and studied in the light of the theory involved, requiring about twenty-six weeks in arithmetic, and from thirty to thirty-six weeks in algebra. Algebra is completed in the Junior year, while arithmetic is again reviewed in the Senior year. After completing our course in these branches, we feel that we can recommend our students with confidence as teachers of them.

Students failing to pass the entrance examinations to the Junior class are promoted into that class as soon as they are found qualified to enter it. Students are admitted to the Middle year classes in plane geometry after completing the Junior mathematics, without any previous knowledge of the subject. They are required in this branch of mathematics to learn and illustrate all definitions and axioms; to commit to memory and thoroughly demonstrate all propositions and corollaries, giving full authority for every statement made; to solve all geometrical problems by accurate constructions, and to demonstrate and solve original theorems and problems.

In the Senior classes, solid geometry and plane trigonometry and surveying are studied with equal thoroughness, and practical field work in surveying with a first-class surveyor's transit, with stadia attachment, is done during the spring term.

Classes in higher algebra, spherical trigonometry, analytical geometry and calculus are formed whenever a sufficient number of students apply to warrant it.

Physical Sciences

Physics:—In Physics the topics regarded as of practical value to the greatest number are mechanics, including the mechanics of liquids and gases; heat as a motive power, and in its application to

atmospheric phenomena; and such portions of electricity as are necessary to an elementary knowledge of its more common practical applications. Individual laboratory work is required of all students.

Chemistry:—In Chemistry the work is almost entirely experimental in character. Each day's lesson is learned by the student in the laboratory, and embodies the result of his own observations and experimental work. As soon as the student is sufficiently advanced, his attention is turned to such portions of the subject as find practical application in the home, in the dairy, and on the farm.

Geology:—In Geology the student is expected to become familiar with the common minerals and rocks, and the changes undergone by rocks in weathering and in the processes of soil formation. Stress is placed upon the ability to recognize different rock formations, and the influence of such formations upon the general character of the country. He is also called upon to observe the action and effects of rain and streams in producing the present relief forms shown in our own neighborhood. In short, while an attempt is made to cover the ground and the text-book, such portions of the subject are given prominence as furnish the best fields for investigation in our locality and serve best to stimulate observation and thought.

Biological Sciences

Physiology:—The work of this department begins in the sub-Junior year with Physiology. A reasonable acquaintance with the bare facts is pre-supposed. The effort is here made to teach thoroughly the principles which underlie all life. The microscope, with abundant preparation, an Azoux manikin, and fresh material, are freely used. In the Middle year we take up

Botany:—Enough systematic Botany is taught to enable pupils to use the analytical tables. But the stress of the work is laid on the life activities of the plant, and on its relation to its surroundings. A well-equipped laboratory, with a rich supply of materials and charts, is used for this purpose. In the Middle year we also take up

Zoology:—Here an abundance of material, both living and prepared, is furnished. There are microscopes enough to familiarize all pupils with their use. The great types are studied. But the emphasis of the work is again laid on the life history of the animal and his relation to his surroundings. During the Senior year we offer an elective in

Nature Study:—Here selection is made from the animal and plant world, of the materials which can be best presented to children, and attention is paid to the method of adapting their subjects to the lower grade. A consistent plan runs through the entire course of Biological Sciences. A pupil who goes carefully through this course gets a good general view of modern biology.

Historical Sciences

History of the United States:—During the first twenty-seven weeks of the preparatory year an elementary course is given. The work is based upon a text-book supplemented by required reading in the standard histories, exercises in historical geography and the preparation of written topics, with frequent reviews and examinations. During the remaining thirteen weeks of the year this course is repeated more rapidly for those who failed to complete it and for others who

may desire to review it. In the Junior year there is a twenty-seven weeks' course in this subject. Special attention is paid to the political and industrial development of the United States. Much topical work, designed to train students in the use of the more important secondary histories and illustrative source material, is given.

General History:—A twenty-seven weeks' course in the Middle year embraces a rapid survey of the entire subject, in which the origin and growth of institutions are briefly traced and the meaning of the more important movements and epochs pointed out and emphasized.

English History:—This (with Ethics and Logic or Astronomy) may be substituted for the Latin of the Senior year. After the rapid survey of the origin and development of English institutions the class will make a more detailed study of the Protestant Reformation, the political revolutions of the Seventeenth Century, the growth of the British Empire and the industrial and political tendencies and movements of the Nineteenth Century.

Geography:—Political Geography is taught in the Preparatory or sub-Junior class, and students who expect to enter the Junior class are urged to prepare thoroughly and pass a final examination upon this subject upon entrance. The subject is carefully taught as found in the modern text-books, with abundant illustrations of maps and globes.

Civil Government:—A careful study of the Civil Government of the United States and of the State of Pennsylvania is made in the Junior year. The facts of the Constitution and the comments as found in the text-books are carefully learned and supplemented with much additional practical information and application. The course is designed not only to prepare its students to teach this important subject, now required in all the public schools of the State, but also to better prepare them for their duties as citizens.

The Arts

Drawing:—The aim of the course of instruction in this department is not only to teach the students Drawing, Form Study and Color, but also to furnish a means of mental development which shall lead to a knowledge and appreciation of the beautiful. The three general divisions of the work are: Representation, or the drawing of the appearance of objects; Decoration or the producing of beauty in ornament; and Construction, which deals with the facts of form.

Writing:—The essential requisites for good business writing are legibility and speed. To get the best results in this department we use one of the approved systems of Vertical Writing, and in addition give students time exercises for practice in speed.

Book-keeping:—Book-keeping is taught from the practical standpoint. The course requires a knowledge of single entry book-keeping only, and especial attention is paid to the important business forms, the object being not only to enable students to understand and teach the subject, but also to illustrate many of the practical phases of arithmetic. A course in double entry book-keeping is also provided for those desiring it.

Physical Training

This department provides instruction and means for the betterments and preservation of health and the harmonious development of the body. It prepares graduates to introduce free gymnastics into

their schools and to exercise intelligent oversight of the physical needs of school children. These objects are accomplished by—

1. Regular class exercises in the gymnasium during the fall and winter and upon the field in the spring, and by periods for optional work after school hours, alternating with class days.

2. Physical measurements and strength tests of all students upon entrance, at the close of the school year, and at such intervals as seems necessary. This forms the basis of comparison of the student's condition and needs, and determines the character and amount of exercise necessary to overcome marked deficiencies. irregular development, or such deformities as are amenable to physical exercises.

3. Personal advice in reference to habits of life, exercise, study, and recreation; by lectures and class-room instruction pertaining to hygiene, the physiology of exercise, etc.

4. Instruction concerning the history, systems, methods and educational value of gymnastics, and its correlation with other branches.

5. Practice teaching of school-room gymnastics, instruction and practice of plays and games involving physical activity, and a consideration of the principles which lie at the bases of the universal play instincts.

All students are required to take the prescribed light gymnastics, which are of such a character as to meet the average needs and not over-tax the strength of any student who is in a physical condition to undertake normal school work.

Location, Buildings, Etc.

The West Chester State Normal School was founded in the year 1871, by the joint efforts of the Trustees and contributors of the West Chester Academy, and the citizens of West Chester and vicinity.

West Chester is a beautiful town of 12,000 inhabitants, the county seat of Chester County, and is pre-eminent for its healthfulness, morality and intelligence. It is about twenty-five miles west of Philadelphia, with which it is connected by two lines of the Pennsylvania R. R. It is also connected with Philadelphia by a trolley line, over which cars run every half hour each way. A short branch road connects West Chester with the main line of the Pennsylvania Railroad at Frazer, where close connections are made with the trains on the main line; and by electric roads it is also connected with the Philadelphia & Reading R. R. at Lenape, and with the Pennsylvania R. R. at Downingtown and at Kennett Square.

Principal's Residence

THE BUILDINGS

Are situated in the southern part of the borough, half a mile from the Court House. The main building is built of greenstone and white marble, 256 by 234 feet, four stories high, with basement.

The chapel and the dining-room adjoin the main building and are completely and handsomely fitted up. Two new additions for sanitary purposes have also been erected, and each story, on both the girls' and boys' wings, is fitted up with bath-rooms (hot and cold water), water-closets, slop-hoppers, &c., of the best pattern. The drainage is first-class. These sanitary improvements alone cost $10,000, and are believed to be among the best and most healthful to be found anywhere. The whole building has lately been improved; the students' rooms have all been papered, refitted and refurnished, and many other improvements made to add to the efficiency of the school and the comfort of the students.

A large passenger elevator makes all the floors equally desirable. An electric light plant supplies every part of the building with the best and safest lights.

The Gymnasium.—There is a first-class gymnasium, 104 by 64 feet, with an administration building attached, 29 by 36 feet. It is of stone, two stories high, fitted up with every modern improvement, including a full supply of the best apparatus, running track, bath rooms, large swimming pool, bowling alleys, &c. A thoroughly trained physician and his wife are in charge of the gymnasium, and all exercise is taken under their supervision. All students are given a complete physical examination, and proper exercises prescribed for them. This gymnasium marks a great and important advance in Normal School work, and its advantages are enjoyed by all students without extra cost.

Recitation Hall.—Recently the Board of Trustees erected a new building 185 by 80 feet, with two stories above a high basement, which is used wholly for school purposes. It has been planned with great care, and is unusually well adapted for its purpose. It is heated and ventilated by the fan system. The total cost of the building and heating plant has been over $100,000.

Library.—A new library building has just been built at a cost of $60,000. It is 90 by 72 feet, will hold 50,000 books,

and affords fine reading and reference rooms. In its second story are the school's museum, an art gallery and the collection of the Chester County Historical Society. The library now contains more than 16,000 well selected volumes, including the libraries of the late Dr. William Darlington and of the Chester County Cabinet of Natural Sciences, the Evans Rogers collection of historical books, for which $1,000 was given by the late Evans Rogers, the Horace Howard Furness collection of books on Shakespeare, the gift of Dr. Furness, and the collection of Chester County bibliography made by H. Rush Kervey. A modern card catalogue and a trained librarian add much to the value of the library. About a hundred leading magazines and papers come regularly to the library for the use of the school.

New Grounds.—The erection of so many buildings has so taken up the main campus that the Trustees have purchased adjacent grounds at various times, including the fine grounds of the Chester County Agricultural Society, until they now embrace forty-eight acres, including enclosed grounds suitably fitted up for all outdoor games, and a large and safe skating pond.

Infirmary.—A complete and well-appointed school infirmary, at considerable distance from the other school buildings, has been erected. This has been planned by skillful physicians and architects, and will not only promote the comfort and recovery of any who may be ill, but will also tend to prevent the spread of contagion in the school. It is believed that this was the first school of its class to take this important step. A trained nurse is employed by the school, who gives her whole time to the care of the health of the school.

The school property has now cost about $750,000, and is believed to be one of the best and most complete of any State Normal School in this country.

STUDENTS' ROOMS.

The rooms are generally arranged for two students each. All are good sized, have high ceilings, and are thoroughly heated by direct steam radiation. The rooms are newly and comfortably furnished, have closets, single beds, wash stands, bowls and pitchers, and are furnished with woven

wire mattresses. The ladies' rooms are all partly carpeted. The buildings and grounds are lighted by the school's own electric lighting plant.

Admission, Government, Etc.

CONDITIONS OF ADMISSION.

Pupils will be allowed to enter the regular course at any point for which they are actually fitted, subject to the regulations before mentioned. They may enter at any time during the Session.

A prompt attendance at the commencement of the Session is of the utmost importance, both to the progress of the pupil and proper organization of the School.

Students desiring to enter the institution should make application to the Principal at as early a date as possible. All new students must submit satisfactory testimonials of good character from their last teachers, and must have physician's certificates of vaccination.

OUTFIT.

Pupils boarding in the institution will be furnished with beds and bedding, and are expected to furnish a pair of blankets, or an equivalent, towels, and table napkins; also an umbrella and a pair of rubber over-shoes. All students will need gymnasium shoes, which can be got in West Chester at small expense. The young ladies of the Senior, Middle and Junior classes provide themselves with gymnasium suits of black serge, the blouse waist of which may be made from Butterick pattern No. 9535, and it is highly desirable that all the young ladies should have this satisfactory and inexpensive dress. Many of the boys provide carpet for their rooms, thus giving them a very neat and homelike appearance.

Keys, wash-bowls and pitchers are furnished by the school, but their cost must be deposited when they are obtained, which deposit will be refunded when they are returned uninjured.

MORAL AND RELIGIOUS CULTURE.

All students are required to attend the opening exercises of the school in the Chapel each day, and all must attend religious services each Sabbath morning in the town, at the churches preferred by their parents or guardians. The Young Men's and Young Women's Christian Associations are large and efficient, and maintain regular non-sectarian religious meetings.

LABORATORIES.

The new Chemical Laboratory renders the facilities for Chemistry even more complete than ever; the department is under the charge of a practical chemist, who has devoted years to this important branch, and who is the State Chemist of Pennsylvania. Students receive instruction without extra charge, but are required to pay for chemicals used, breakage, etc. The removal of the laboratory out of the main school building has removed all the danger often apprehended from such departments. Laboratories have also been equipped with apparatus, microscopes, &c., for individual work in Physics, Botany, Physiology and Zoology.

LITERARY SOCIETIES.

There are connected with the school two flourishing Literary Societies—The Moore Literary Society and the Aryan Society—composed of students and members of the Faculty. The value of these societies as adjuncts of education is so great that the student cannot afford to neglect the opportunities they afford for literary and oratorical culture.

MUSEUM.

The Museum contains a large and valuable collection of specimens, illustrating every department of Natural Science. It was begun in the year 1826, and has been annually enriched with contributions from every portion of the world. The justly celebrated "Herbariums" of the late Dr. William Darlington, David Townsend and Josiah Hoopes, now in this Museum, are conceded to be among the most accurate and extensive private collections ever formed in this country. The mineral collections of the late Alfred Sharples have been deposited by his son, F. F. Sharples. The J. Preston Thomas collection of heads and horns, a valuable zöological

Interscholastic Meet on Wayne Field

collection from all parts of the world, and of Indian relics, including thousands of arrow heads, axes, pipes, &c., were collected by the late J. Preston Thomas and given to the School by his family.

TEXT BOOKS.

Text Books are sold to students at publishers' prices; but most of the books used in the course are furnished on rent to those preferring it.

MUSIC.

This department, including vocal music and piano, is unexcelled outside of the large cities. The teachers in charge are fine musicians, and have had long and successful experience in their profession.

VOCAL MUSIC.

The best modern methods of instruction are used both in class work and individual instruction, and the success and popularity of the department have been very marked. Private pupils in vocal music pay the same rates as in instrumental music and have the use of a piano to aid their practice. Class instruction in vocal music is given without extra cost.

MUSIC RECITALS

Are held every few weeks in the Chapel for the purpose of giving the pupils ease and self-control in playing and singing before an audience. For these recitals a Steinway Concert Grand Piano is used.

A course of reading in musical literature is commended to cultivate the style and enrich the pupil's knowledge of the great masters.

APPLICATIONS FOR TEACHERS.

Frequent applications are made to the Principal for well-trained teachers, and it will be our aim to supply the demand as far as possible.

CALENDAR.

The school year is divided into two sessions. The Fall and Winter Sessions will begin *Monday, September 5th,* and continue *twenty-seven weeks.* The Spring Session will begin *Monday, March 27th,* and continue *thirteen weeks.* There will

be a vacation of one week at Christmas, and one of the same length between the sessions in March.

EXPENSES.

	Full School Year 40 weeks	Fall & Winter Term only. 27 weeks	Spring Term only. 13 weeks	Part of a Term Per wk
Boarding Students:—Board, tuition, furnished room, light, heat laundry (12 pieces per week), and enrollment fee	$220.00	$153.50	$76.50	$5.50
Day Students:—Tuition and Enrollment Fee	65.00	45.50	24.50	1.50
DEDUCTIONS:—				
State Aid for students 17 years or more of age and preparing to teach at least two years in Pennsylvania	60.00	40.50	19.50	1.50
Absence: — Boarding students absent for two or more consecutive weeks on account of personal sickness	.....	.....	.....	4.00
No deduction will be made for the first four weeks or for the last four weeks of the school year.				
Students who take Gymnasium only	10.00	6.75	3.25	.25

When a student's place in the school building is held for him during his absence, and cannot be temporarily filled, a charge of $1.00 per week is made.

Meal tickets for visitors may be got from the steward at 25c. each.

MUSICAL INSTRUCTION—				
Two lessons per week with two practice periods per day	50.00	34.00	16.00	1.30
Two lessons per week without practice	40.00	27.00	13.00	1.05
Use of piano two practice periods per day	10.00	7.00	3.00	.25

No deduction can be made for missed lessons unless the student is absent from school on account of personal sickness for two or more consecutive weeks.

For half the above number of lessons and practice the charge will be half as much.

All students except those who take only music lessons or gymnasium work will be charged once each year an enrollment fee of $5, which must be paid before they enter school. No student will be enrolled for a room in or through the school until this fee has been paid. If notice of withdrawal is received a week or more before the opening of the term or the expected date of entrance, the enrollment fee will be refunded, and, as indicated above, in the case of a boarding student, will be credited upon the bill for a full year's attendance, but will not be credited upon the bills of day students.

In case of a deficit in the State Aid appropriation, students

at the different State Normal Schools will receive the same pro rata share of the appropriation. No deficit has occurred in recent years.

Except in case of a deficit, the State Aid pays the tuition of all students who are over seventeen years of age who declare their intention to teach at least two full terms in the common schools of the State, and who constantly receive regular instruction in the science or art of teaching in a special class for that purpose.

$74.25 must be paid at the beginning of the Fall and Winter term, the balance, after deducting the State Aid for the term, is due at the middle of this term. The bill for the Spring term must be paid at the beginning of that term.

The Principal acts for trustees and receipts all bills.

Bills may be paid by cash, check, or postoffice money order.

There are no extra charges, except for books, stationery, sheet music and materials used in the laboratories.

There is no extra charge for vocal music, elocution, bookkeeping or drawing taken in the regular classes.

Bills for one term must be settled before students will be permitted to enter upon the next term unless by special arrangement.

Diplomas will not be issued to those whose bills are unpaid.

ALUMNI LOAN FUND.

A loan fund has been established by the Alumni, which now amounts to over $2000. This is loaned, without interest, to worthy students preparing to teach, preferably to those already in attendance and who are in the advanced classes. Applications for loans should be made to the Principal, or Miss Susan C. Lodge, treasurer, Lansdowne, Pa.

VISITORS AND VISITING.

Calls on pupils at other times than during the hours of recreation seriously interfere with the object they have in view, and therefore will not be allowed except in case of necessity. Prolonged visits are not expected as they interfere with the student's work as well as with the school's household arrangements.

Every absence from school duty is a loss which cannot be wholly made up. *Parents are earnestly requested not to take*

their children away from a single school duty, unless it is absolutely necessary. It will interfere with important school duties if a student leaves school earlier than Saturday morning or returns later than Sunday evening. Students are not permitted to visit home or away from the town without special permission from their parents or guardians.

THE TEXT BOOKS USED.

Readers—Brumbaugh, Curry; *Arithmetic*—Sensenig & Anderson; *Geography*—King, Davis; *Grammar*—J. P. Welsh, Milne; *Geometry*—Wentworth; *Algebra*—Sensenig; *Physiology*—Davison; *Natural Philosophy*—Balderston; *Botany*—Bergen; *Chemistry*—Remsen; *Zoology*—Jordan, Kellogg and Heath; *Geology*—Tarr; *Rhetoric*—Merkley; *History, U. S.*—Mace, McLaughlin; *Civil Government*—Philips; *Drawing*—Prang; *Vocal Music*—Melodic; *School Management*—Seeley, White; *Methods of Instruction*—Roark; *Psychology*—Thorndike; *Trigonometry and Surveying*—Wells and Robbins; *Astronomy*—Sharpless & Philips; *Latin*—Allen & Greenough, Collar & Daniel, Gunnison & Harley's Cæsar, Allen & Greenough Texts; *German*—Bieswirth, German Texts; *English Literature*—Pancoast, English Texts; *Orthography*—Aiton.

REGULATIONS.

1. Every student is requested on entering to give the Principal information in regard to the following particulars: Whether he designs fitting himself for a teacher; what length of time he designs remaining in the institution, and whether he desires to pursue the regular course for graduation.

2. Students are considered members of the school until the Principal is duly notified of their withdrawal.

3. The hours regularly assigned to duty are to be faithfully devoted to the preparation of the exercises required.

4. Students are allowed to walk for exercise in the vicinity of the school, but no one is permitted to visit the town or otherwise absent himself without permission from the Principal. Absence from the building after dusk is not permitted without permission. New acquaintances outside of the school must not be cultivated.

5. Permission to be absent from a recitation must always

Breaking the Record—9 feet 9 inches

Interior of Library

be obtained from the teacher in charge of the class, *before* the absence occurs; and students desiring to be absent from town must obtain written permission from the Principal.

6. Boarding students who are not present at the beginning of the term must send to the Principal written explanations of their absence.

7. Every student must be present at the daily opening exercises of the school, and at all general exercises of the school, and at the general exercises in the Chapel, unless excused.

8. All objectionable books, papers and cards found in possession of the students will be taken and destroyed.

9. Disorderly conduct in the building is prohibited. Each student will be held accountable for any disturbance or damage in his room.

10. No nails must be driven in the walls or ceilings, or alterations made in the windows, doors, or any appendage of the rooms without permission from the *Steward.*

11. Students are not allowed to visit one another's rooms during the regular hours of study without permission of those in charge of the halls. No change of rooms must take place without permission of the Principal.

12. Each student of instrumental music will have regular hours assigned for practice, during which time no spectator must be present to interrupt the exercises or divert the attention.

13. All students who are tardy, unnecessarily, at meals, must forfeit them, and no one must leave before the rest at the table without good reason, and permission from the person sitting at the head of the table. Any student sick or indisposed, and requiring attention, must have himself reported at once to the Nurse.

14. It is expected that the ladies and gentlemen of the Institution will treat one another with politeness, but they will not be allowed to be together or to carry on conversation or other communication except in the performance of the school exercises, unless by special permission. Neither sex will be permitted to trespass upon that portion of the building assigned to the other.

15. No lady or gentleman attending this Institution will

meet, walk or ride with a person of the opposite sex, except in case of necessity, and then only with the permission of the Principal.

16. Students will not visit the dining room at any other time than meal time, nor the domestic departments, boiler room or music rooms, without permission.

17. The use of tobacco in any form is strictly prohibited in the building or on the grounds.

18. Students must not enter any saloon, bar-room, billiard or pool-room. They are forbidden to use as a beverage alcoholic liquors of any kind whatever during their connection with the school.

19. Students will be required to attend public worship each Sabbath morning at such places as their parents or guardians designate.

20. Students are required to take up enough studies to keep them, in the judgment of the Principal, sufficiently employed, but not more than they can study with profit.

21. Students must furnish towels, napkins, and two pairs of blankets (or an equivalent), and have all articles of clothing *distinctly marked.* Each student is permitted to have twelve plain pieces washed each week without extra charge. While great care is taken with all articles sent to the laundry, the School will not be responsible for their loss or damage.

22. All students must present physicians' certificates of successful vaccination.

The right is reserved to remove from the school any pupil whose influence is found to be detrimental.

SUMMER SCHOOL

...OF THE...

WEST CHESTER STATE NORMAL SCHOOL

I. GENERAL INFORMATION

After the close of the regular term a summer school will be opened. Monday, June 26, will be opening and enrolling day. Classes will begin recitations on Tuesday, June 27. It is very desirable that students begin work on that day. The school will continue in session five weeks and the aim is to make the work thoroughly practical and helpful. Students who have conditions to make up will find the work here especially suited to their needs. An opportunity will be given at the close of the session to take examinations over the work pursued and many students will undoubtedly be able to take better standing in their respective schools and save much valuable time.

Who Can Profit by the School

First: Provisional certificate holders who wish eventually to become possessors of Normal Diplomas, without stopping work. A professional certificate and the $50 salary might also be secured by these same persons.

Second: Those who wish to be specialists. Penmanship, drawing, vocal music, physical training and the manual arts have already been asked for.

Third: Persons who completed the two year Normal Course, and wish to fit themselves to hold High School positions by taking the work of the third year. Requests for this work have already been received.

Fourth: Normal graduates who wish to pursue post-graduate work in the present State course of study for the degrees of Bachelor or Master of Pedagogy. Requests for this work have already been made.

Fifth: Teachers desiring special preparation for High School teaching, as in English, mathematics, science, etc. Such requests have already been received.

Sixth: Persons appointed to rural schools who are inexperienced in the work of such schools and wish special preparation for such work.

Seventh: Teachers who contemplate a college education, since Normal School graduation not only confers a life certificate to teach, but also secures college admission and even advanced standing to the extent of about a year's work.

Teaching Positions

Each summer brings many requests to the Normal School for teachers. Heretofore it has been impossible to fill desirable positions by reason of a lack of suitable persons. Hereafter recommendations to such positions will be made from the summer school enrollment when there are suitable candidates.

Points of Interest

Valley Forge, Brandywine, Paoli and numerous other points of historic interest are nearby. Philadelphia, with its countless places of interest, is easy of access. Atlantic City trips afford a possible week-end diversion.

Recreation

The gymnasium, with its swimming pool and bowling alleys, and the 50 acres of school grounds will be free. Games and sports will be regularly organized and conducted for educational play-leaders and directors, as well as for sport. The surrounding country affords opportunity for numberless interesting walks, which are to be made part of the instruction in history, geography, nature study, etc., after the German plan.

Location and Accessibility

West Chester has unusually good railroad and trolley facilities. It is connected with Philadelphia by the Pennsylvania Railroad over two lines. At Frazer, connection with the entire system of the Pennsylvania lines is made, and at Lenape, with the Philadelphia & Reading Railway. There is half-hourly trolley service to Philadelphia for 30 cents, as well as trolley service to Kennett Square, Downingtown, Coatesville, Lancaster, &c.

Advantages of Location

West Chester is a beautiful town of 12,000 people and is pre-eminent for its healthfulness, morality and intelligence. Wide, shady, clean streets and beautiful parks, joined with much open space about the dwellings, assure comfort and the preservation of energy so that school work will be pleasant and profitable. By actual record, our temperatures are always from three to ten degrees lower than Philadelphia's temperature. The water supply is pure and abundant.

Boarding

Rooms and board in pleasant nearby homes will cost $4 per week when two persons occupy one room, or $5 per week for single rooms. Upon request a list of such homes will be mailed to inquirers. The entire term, therefore, need not cost more than $35 to those desiring to keep the expense as low as possible. Excellent hotel accommodations at moderate prices are available for those preferring them.

Expenses

A payment of ten dollars ($10) will be required from each student. This covers the charge for enrollment, tuition for any two courses, use of the library, and admission to all general entertainments, lectures and seminars. Additional charges will be made for additional courses at the rate of $2.50 for each additional course, up to four courses, the limit permitted to any student. Laboratory charges covering materials actually used will be made in manual training, chemistry, etc.

Books and Supplies

All books and supplies needed will be procurable at usual prices in the school's book and supply room. Books may be rented also for a small weekly payment.

Further Information

Those who are coming should notify us early and indicate the courses which they desire to take. This will help us in planning to meet their needs.

Correspondence and inquiries are invited.

G. M. PHILIPS, Principal,
West Chester, Pa.

II. ANNOUNCEMENT OF COURSES

In the summer school of 1911, practically all the work of the Junior and Middle years of the present Normal course is offered and will be given in all subjects in which sufficiently large numbers apply for them. Senior and post-graduate work may be conducted this year, if the particular subjects are called for by enough students. As already indicated in Part I, all work in the summer school in the regular Normal Course will be credited toward certificate, diploma or degree. The following announcement of courses will enable a prospective student to determine whether the school has anything to offer that he needs. If he cannot find such a course, a postal card addressed to the Principal will bring him the desired information.

Agriculture

In view of the increasing importance attached to this subject, it will be given careful attention. The aim will be to prepare students to teach it in the public schools. Besides class-room discussions and recitations, there will be experiments in the laboratory and practical observations in the garden. Among topics discussed will be origin, texture, tillage, moisture and fertility of soil, classes of farm crops, management of these, rotation of crops, diseases of plants, etc. The work will show what can be done in rural schools and in city graded schools. Suggestions will be given how to manage school gardens.

DR. GRIM.

Botany

This course will give a review of the whole subject. The lectures and discussions will be accompanied by experiments and demonstrations showing the work of plants. Material from the school garden will be used to illustrate the work.

DR. GRIM.

Chemistry

This course aims to review the chemistry required of those who pursue it in the Normal schools. The regular work in the recitation room and the chemical laboratory will be supplemented by lectures on some commercial applications of chemical processes, by a visit to the local illuminating gas plant and by whatever of a practical nature the community has to offer. As far as possible an effort will be made to have the course cover the chemistry of the farm and the home. Correlated thus with the course in Agriculture, it will be especially valuable to those who elect that.

PROF. NEWMAN.

Drawing and Industrial Art

The teaching of drawing will be made very practical, and the aim will be to help those who are required to teach it in a grade with or without the supervision of a special teacher. The work of the different grades in the public schools will be presented in the Model School.

The same careful attention will be given to the course in supplementary hand-work. The course will include basketry, raffia, paper cutting, cardboard construction, etc. Those who pursue this course will be better equipped to teach the subject.

MRS. MARSHALL.

English

This course offers a careful review of the principles of English grammar and methods of teaching it in all grades. The course in literature will be practical and adapted to the needs of teachers. Story Telling in the grades will be an important topic of this course.

DR. MacMULLAN.

Geography

This subject will be presented with especial emphasis upon industrial and commercial conditions as the influencing causes in modern trade and humanitarian relations among the peoples of mankind. The needs of the teacher as teacher will merely be supplemented by an attempt to supply his need as human being—sympathy with mankind.

PROF. WAGNER.

Geology

The object of this course will be primarily to acquaint teachers with the field of geology as a source of Nature study and to supply material for enlarging instruction in geography, particularly in the elementary grades. Class-room work will be supplemented by a study of rocks and rock-formations in the neighborhood, by a careful study of a stream and much library work.

PROF. NEWMAN.

History

1. **General History.**—The course in General History given in the Middle year embraces a survey of the entire subject in which the origin and growth of institutions are traced and the more important men and movements emphasized. As much of this course as time will permit will be given during the summer session. The particular period to be studied will be determined by the needs of those enrolling in the class.

PROF. BURNHAM.

2. **United States History.**—The work of the Junior year in this subject will be offered. This course is based upon a text-book supplemented by collateral reading and topical work designed to train students in the use of secondary histories and illustrative source material.

PROF. BURNHAM.

3. **Civil Government.**—The Junior course in this subject includes a careful study of the Civil Government of the United States and the State of Pennsylvania, based upon Philips's Nation and State.

PROF. BURNHAM.

4. **History for Teachers.**—This course will deal with the problems of teachers of history in the common schools. The place of history in the course of study, its value, the use of stories in the lower grades, the proper use of a text-book and of other books, the use of illustrative material, the problem of teaching children how to study the lesson, will be some of the topics treated, and a series of type lessons will be given.

PROF. BURNHAM.

Latin

1. **Elementary Latin.**—With the aid of charts specially devised, this course will give a good foundation in pronunciation and forms and a good knowledge of the fundamental principles of Latin Syntax. Methods of teaching will be suggested.

PROF. DICK.

2. **Caesar.**—An opportunity is given to review the work of the Middle year. Charts in colors have been prepared to illustrate Caesar's Campaigns in Gaul, and others to present difficult points in syntax. As good, idiomatic English is a prime requisite in a correct translation, attention is constantly called to the difference in idiom and word-order of English and Latin.

Work in Cicero and Virgil will be planned, if it is needed.

PROF. DICK.

Mathematics

Courses will be offered in Arithmetic, Algebra and Plane Geometry, in which the work will be of the same character and grade as that now pursued in the Normal School in the Junior and Middle years. In Arithmetic, stress will be laid upon methods of teaching the different topics considered.

Classes will be organized in Solid Geometry, Plane and Spherical Trigonometry, and Surveying, if there is a sufficient demand for them.

DR. ANDERSON,
MISS MARTIN.

Modern Languages

Courses, giving careful drill in pronunciation and grammar, in German or French, elementary or advanced, will be arranged according to the needs and number of those who enroll.

PROF. DICK.

Music

This course will give the best ways of teaching music in the grades. The lessons will show how the child should use the voice and will include other phases of the work according to the needs of the class, accompanied by demonstration in the Model School.

MRS. MARSHALL.

Nature Study

This course will present the underlying principles, purposes and methods of the subject, and a course of study for children in the various grades will be outlined and discussed. Our domestic animals will receive special attention, as well as our native birds and insects, studied whenever possible in their habitat.

DR. GRIM.

Nature Study—Local Bird Life

Classes will also be organized for the purpose of studying local bird life. These Bird Classes will study the birds in the field, learning to identify the local species by both eye and ear. Particular attention will be given to ways and means of introducing this branch into the school room, and of correlating it with other phases of nature study.

DR. EHINGER.

Pedagogy—School of Observation

A one-room school, consisting of all the classes usually found in a rural school, will be open in the Model School building during the entire time the summer session continues. It will be in charge of a skillful teacher whose methods will exemplify what can be done by the so-called ungraded school teacher.

Specialists, members of the faculty, will give illustrative lessons in this school with classes in nature study, calisthenics, vocal music, story telling, English composition, industrial art, and writing, thus giving the members of the school an opportunity to see the pupils working with their teachers under ordinary conditions, and to observe what can be done by adapting and applying the methods taught in the several courses of the summer school.

Particular attention will be given to games and directed play. (See Organized Play.)

Every teacher who becomes a member of the school should arrange a program so that she can spend a period a day in the school of observation. The principal and teacher of this school will meet such students as desire to attend a seminar, to discuss methods and ask questions.

MRS. KELLOGG,
PROF. JONES,
PROF. WAGNER.

School Management and School Law

The organization and the operation of a single school, comprising eight grades, by one teacher, will be studied in all important phases and details; book study and recitation will be supplemented by observation under direction in the Model School. One period daily will be required for class work. Observation work will require additional time. White's School Management will be used as the text. Library work from other texts will be assigned as needed.

The School Law of Pennsylvania, in the phases needed by teachers, will be presented from the text of the law.

PROF. WAGNER.

History of Education

The history of education is studied so as to emphasize the beginnings of present-day practices, and to show the organization and the content of the courses of study of famous schools and systems, so that existing ideas and ideals in education shall be clearly perceived in both their progress and development. Into this scheme the leading educators are fitted as the stepping stones. This course will be useful for persons who contemplate taking the Philadelphia examinations. Kemp's History of Education will be used.

PROF. WAGNER.

School Administration

This course includes the organization of a system of schools, their management and administration by Principal, Supervising Principal or Superintendent, with particular regard for the questions of time distribution among the grades and branches, relation of home and school, and the work of Parents' Associations. Lectures and assigned readings in standard works of reference.

PROF. WAGNER,
PROF. JONES.

Organized Play

A course will be conducted in organized play, with special emphasis upon plays and games suitable for school children. The aim will be to correlate this with the work done in Methods and School Management, and to secure an insight into the nature and function of play, its relation to the formal branches of the school curriculum, and its influence upon growth and development. The school campus, and Wayne Field adjoining, afford every facility for such activities. Students will have an opportunity to learn school games and to see them played by the pupils of the Model School.

DR. EHINGER.

Physiology and Hygiene

In conjunction with this work opportunity will be afforded to pursue a course in physiology, with particular reference to the problems involved in teaching personal and school hygiene, and school sanitation. The relations of infectious and contagious diseases to school life and health will be considered as a part of this course.

DR. EHINGER.

Penmanship

This course will present, in a series of carefully prepared lessons, the work of teaching penmanship in the grades, with special reference to movement.

PROF. MITCHELL.

Physics

This course will assist any who wish to teach the subject in High Schools or offer it for college entrance. Much work will be done in the well-equipped laboratory of the school. This work will be supplemented and emphasized by the solution of many practical problems and by visits to several of the electric light and refrigerating plants of the community.

If a sufficient number desire it, a special course in the pedagogy of science will be given, for which Smith and Hall's "Teaching of Physics and Chemistry" will be the basis. This will be a valuable course for teachers of science.

PROF. NEWMAN.

Psychology

1. **Elementary Psychology.**—This course is offered for those who wish to become acquainted with the more general aspects of Psychology. It includes a study of the fundamental processes of sensation, perception, imagination, memory, etc., and their development and function. It will be accepted as the equivalent of one-half year's work in Middle Year Psychology. Text-book: Thorndike's Elements of Psychology.

PROF. CAMERON.

2. **Advanced Psychology.**—For those who have already done work in Psychology, this course is given to afford opportunity for advanced study. Emphasis will be given to the application of Psychology to the various phases of activity. Its satisfactory completion will meet the requirements for the Middle Year work of the Normal School.

PROF. CAMERON.

3. **Child Study.**—This course is intended not only for teachers who desire to prepare themselves for studying the problems of the child in its relation to school work, but also for parents and others who are interested in the development of the child. It will be of especial value to Sunday School teachers who wish to meet their particular problems in an intelligent way. In this course emphasis will be put on the study of adolescence. Along with the course in Elementary Psychology, this course will fulfill the requirements for the Middle Year work in the subject, and will be accepted as post-graduate work.

PROF. CAMERON.

III. LECTURES

In order to make the summer school of the greatest value possible, a course of lectures has been arranged. Superintendents of well-known reputation have consented to speak and will give to the teachers enrolled the fruits of their ripe experience. Several members of the Faculty have consented to lecture, and will give the students of the summer school the benefit of their wide, varied and valuable experience. These lectures will be free. The following have been arranged:—

Superintendent	Daniel Fleisher,	Lancaster Co., Pa.
"	J. H. Hoffman,	Bucks Co., Pa.
"	R. E. Laramy,	Phoenixville, Pa.
"	L. E. McGinnes,	Steelton, Pa.
"	G. W. Moore,	Chester Co., Pa.
"	E. H. Rapp,	Berks Co., Pa.
"	A. G. C. Smith,	Delaware Co., Pa.
"	George Wheeler,	Philadelphia, Pa.
"	H. J. Wightman,	Lower Merion Township, Pa.

(Subjects to be announced later.)

Prof. Smith Burnham:
"My Visit to Greece," (Illustrated with lantern slides).

Prof. Norman W. Cameron:
"Education in the Philippines Before and After American Occupation."

Dr. S. C. Schmucker:
"Our Little Brothers of the Air," (Illustrated with slides).

Dr. George Morris Philips:
"Schools and Schoolmasters Abroad."
"Some Interesting Facts in Astronomy."
"How We Are Governed."
"The New School Code of Pennsylvania."
